

I am an over the road truck driver 51 years old and would like to say XM Satellite radio is the best thing that has come along in years, It's great to be able to listen to a station of your choice from one side of the country to the other. It has become a valuable tool in helping me plan and perform my job safely, to be able to find out road, weather and traffic conditions at anytime 24 hours a day is a service I will gladly pay for. I chose to subscribe to this service and the NAB should not dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB'S petition 04-160.

Thank You
Mike Guin
